

**SINGLE VISION FINISHED LENSES**  
**1.56 Index (Mid Index)**

**Attractive:** Almost 25% thinner than CR-39 and much lighter. Perfect vision quality coupled with less eye magnification due to flat base curves.

Index (Nd)	1.560
Material	MR-7
Abbe Value	38
Specific Gravity	1.28
UV Cutoff	400 nm

**Protective:** Scratch coated and Anti-Reflective coating on both sides. In addition the mid and high index lenses have in-built protection from UV rays and are EMI coated to reduce eyestrain from flickering computer screens

**Certified:** The materials and coatings are of the highest quality and carry approvals of the US FDA, European Union and the independent lab TUV of Germany

**Advanced:** The coating utilizes thin film technology with a proprietary six-layer anti-reflective (A/R) coating applied to the anti-scratch coated lens then covered with a hydrophobic layer that repels water, dust and fingerprints

**CLEX 1.56 HMC / AR + UV**
