

## SINGLE VISION FINISHED LENSES

### 1.60 Index Spheric (High Index)

**Attractive:** Upto 40% thinner and 42% lighter than a CR-39 lens. Extremely flat base curves reduce eye magnification. Affordable, safe, comfortable & perfect vision quality

Index (Nd)	1.600
Material	Acryl

**Protective:** Scratch coated and Anti-Reflective coating on both sides. In addition the mid and high index lenses have in-built protection from UV rays and are EMI coated to reduce eyestrain from flickering computer screens

Abbe Value	42
Specific Gravity	1.30
UV Cutoff	400 nm

**Certified:** The materials and coatings are of the highest quality and carry marks of the US FDA, European Union and the independent German lab TUV for impact resistance

**Advanced:** The coating utilizes thin film technology with a proprietary six-layer anti-reflective (A/R) coating applied to the anti-scratch coated lens then covered with a hydrophobic layer that repels water, dust and fingerprints

UVA Absorption	100%
UVB Absorption	100%
